

INDUSTRIAL NOZZLES

W2561 Series

Viper VTE2510 Lightweight Nozzle 360 l.p.m.

Inlet: 1½" BSP female thread easily adapted to a wide range of international fire connections.

Flow Rate: 360 l.p.m. at 7 bar inlet

Weight: 0.3kg (excluding coupling)

Manufactured from composite material with a brass mushroom, the VTE can be used for marine applications with a suitable inlet connection. Its light weight means it is also commonly used as a forestry nozzle and the fixed, moulded teeth make it a durable and robust addition to any range of fire-fighting equipment.

Maximum w.p.	16 bar
Test Pressure	24 bar
Burst Pressure	60 bar minimum

Other models from the range are available with flow rates from 80 l.p.m. up to 360 l.p.m.
