

## Branches & Nozzles

### W2561 Series

### Viper Industrial Nozzles

W256139

#### W2561 Series

#### Viper VTE2510 Lightweight Nozzle

360 l.p.m.

**Inlet:** 1½" BSP female thread easily adapted to a wide range of international fire connections.

**Flow:** 360 l.p.m. at 7 bar inlet

**Weight:** 0.3kg (excluding coupling)

Manufactured from composite material with a brass mushroom, the VTE can be used for marine applications with a suitable inlet connection.

Its light weight means it is also commonly used as a forestry nozzle and the fixed, moulded teeth make it a durable and robust addition to any range of fire-fighting equipment.

Maximum w.p. 16 bar

Test Pressure 24 bar

Burst Pressure 60 bar minimum

Other models from the range are available with flow rates from 80 l.p.m. up to 360l.p.m.

W256137

Part No.	Inlet Connection
W256137	1½" BSP Female
W256138	2½" Inst male - GM
W256139	2½" Inst male - L/A
