

WATERWAY EQUIPMENT

W153011

FHT Portable Mini-Monitor
(none-adjustable)

At less than 4kg, the FHT Mini Monitor is designed to be simple and compact for easy storage and handling and to offer a virtually maintenance free solution to static water application. Its simplicity makes it an extremely cost-effective piece of equipment

Manufactured in Schedule 40 mild steel, the body is painted with a polyester powder coating designed to give excellent corrosion resistance. Couplings can be fitted to match the customer's requirements and the elevator plate features a 13mm hole to allow the attachment of a restraining tether either directly or via an eyebolt or similar anchor device (supplied by others).

Inlet: 1 x 2½" inst. male to BS336.

Outlet: 1 x 2½" inst. female to BS336,
single twist release.

Maximum w.p. 16 bar

Test Pressure 24 bar

The monitor can easily be fitted with a range of tips from standard hand branch nozzles to monitor nozzles to give a rapidly deployed, low maintenance and effective solution to your fire-ground needs. Inlets can be open or valve controlled.

The monitor is manufactured in the UK to BS336:2010 where applicable.
