

Hose Ancillaries

W7516 Series Hose Washing Machines

W7516 Series Manual Hose Washing Machines

Inlet: 1 x 2½" instantaneous male to
BS336:2010.

The machine is designed to offer thorough yet gentle washing of the hoses without the necessity to brush (subject to the nature and degree of the soiling).

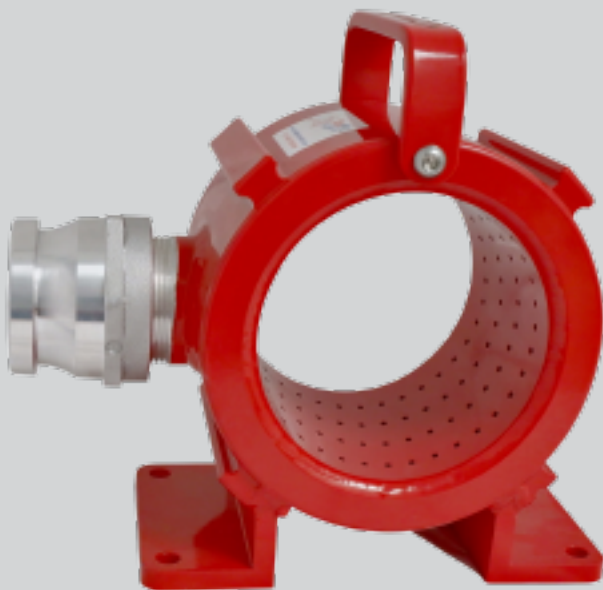

The impact of the pressure jets inside the cleaning chamber impel the hose forward through the machine.

Washers operate with normal mains pressure and are available with a wide range of inlet connectors.

Maximum w.p. 16 bar

Test Pressure 24 bar
Available in Light Alloy

W7516005S has a red painted finish and can accommodate hose with a maximum diameter of 110mm. Fitted with a T-shaped carry handle the inlet connector comes c/w a filter.

W751610P

W751607S
