

Standpipes W3590 Series Keys & Bars

W3590 series

Keys and Bars to BS336

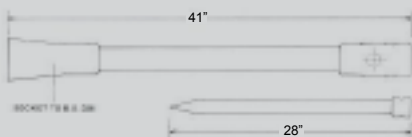

Light Alloy, Painted and Stainless Steel
All keys are suitable for use with hydrant valves complying with BS750 and generally comprise a key plus a captive, chisel ended bar.

In addition there is a wide range of false caps and extension pieces available if required and shortly, a 316 stainless steel version.

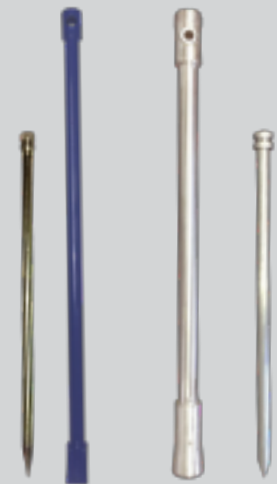

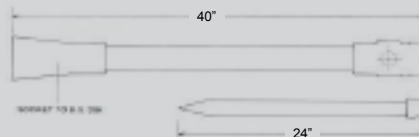

It is also possible to manufacture bespoke L/A keys up to a maximum of 2m in length.
