

Gorgui Xtreme

A versatile tool for all types of grounds and fuels.

Gorgui Xtreme v-CVC0106-P160A

A versatile tool for all types of grounds and fuels

The **Gorgui Xtreme** is a tool designed for wildland fire fighting. It was created out of the experience and changing needs of **the most forward-thinking firefighting brigades** when it comes to the use of manual tools. The main feature is its versatility on all types of grounds given the combination of all the most commonly used tools for wildland fire prevention and extinction in one.

The greatest of efficiency with each movement

The **all-new eccentric attachment design** of the Gorgui Xtreme has increased the work area of the wide blade when used as a hoe. It now reaches a greater depth to increase the **volume of land moved** with each stroke.

* Gorgui Xtreme is a patented model exclusively manufactured by Vallfirest Tecnologías Forestales S.L.

Multi-purpose

The Gorgui Xtreme has a central blade featuring a narrow hoe and a wide hoe, both with replaceable cutting areas. This tool can be assembled in different ways to perform the most common tool functions needed in wildland fire extinction. The blade can be sharpened on the inside and outside to maximize its efficiency when doing work.

- 1 Narrow hoe: Digging in resistant rocky terrain.
- 2 Cutting: Highly resistant tines. Less impact surface and greater cutting surface.
- 3 Wide hoe: Digging in soft organic terrain.

Extra options

- 4 Rake: Less impact surface. Easier dragging.
- 5 McLeod: Easier stripping and dragging.

General technical specifications

Blade material	Anti-wear Hardox 500 steel
Handle material	Wood / fiber / aluminum
Dimensions	27 x 16 x 133 cm

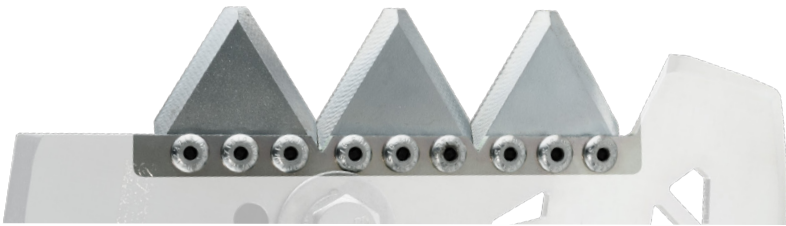

1 Cutting blade

Gorgui Xtreme is produced with 500 HBW abrasion-resistant steel sheet metal. The curves and cutting angles are optimized for enhanced performance.

Plus, the rivets enable accessory customization and durability as the parts may be replaced as necessary.

Technical specifications

- Thickness: 4 mm
- Dimensions: 268 x 158 mm
- Hardness: 500 HBW

2 Handles and heads

Gorgui Xtreme comes with three types of handles: **wood, fiber and removable aluminum**. The three are interchangeable with the two Gorgui Xtreme blade versions, offering great ergonomics for a better grip.

Technical specifications by model			
	Wood	Fiber	Removable aluminum
Head material	Iron	Iron	Aluminum
Handle material	Eucalyptus / beech wood	Fiber	Aluminum
Max. diameter of the handle / length	35 mm / 122 cm	39 mm / 127 cm	36 mm / 133 cm
Handle weight	800-1000 kg	1.40 kg	1 kg
Total weight	2 kg	2.40 kg	2 kg

3 Interchangeable handle system

The all-new Gorgui Xtreme design makes it possible to switch between the three handle models with the two blade configurations using a robust anchor bolt and HEICO-LOCK washers.

This system means up to 6 different versions of the Gorgui Xtreme can be created based on the user's needs.

4 Carrying case

An optional protective case to carry the Gorgui Xtreme. It can be carried on the back using the pull strap for free hands and **protection from cuts**. Also compatible with the Gorgui Classic.

Technical specifications

- Textile material: Cordura 1000 D.
- Adjustable nylon strap for carrying on the back.
